WELCOME TO
**UNIVERSITAS
BRAWIJAYA**

◆ OUR VISION

Pioneering and Innovative University
with an International Reputation of Science
and Technology Advancements
that Form the Basis of Culture-Based Industries
for Community's Welfare

◆ OUR MISSION

1. International standart education
2. An Agent of Renewal, a Pioneer and Disseminator of Science, Technology, Arts and Humanities, As Well As a Force of The Nation's Economic Development
3. Performing Superior, Equitable, and Sustainable Higher education governance

UNIVERSITAS BRAWIJAYA

Brawijaya University is one of the leading universities in Indonesia with more than 60,000 students, in various vocational, bachelor's, master's, doctoral, professional and specialist doctor programs.

Universitas Brawijaya also become **a part of a global community** that celebrates differences and champions equality.

Established on 5 January 1953, in the picturesque city of **Malang, Indonesia**. Universitas Brawijaya is more than just an institution of higher learning; it's a melting pot of culture and diversity.

Create a higher education environment that is **friendly, competitive, excellent, and high-tech**, so that it can develop each individual's potential of the academic stakeholders.

At Universitas Brawijaya, we take pride in our commitment to inclusivity. We are dedicated to creating an accessible and **welcoming campus for individuals of all abilities**.

Produce innovative works in technology, arts, social science, and culture that build the nation's economy and self-reliance **based on noble cultural values**.

Why Study in Malang ?

Malang is the second largest city in the province of East Java, Indonesia.

The Beauty of Malang

Located on a plateau with a mild climate, beautiful sceneries, attractive tourism objects, traditional Javanese artistry, and friendly locals,

Malang has become a favourite destination for vacation, travelling, sightseeing, and even staying.

Malang City of Education

Malang is also known as one of the cities of education since it has various schools and universities that have been trusted to produce high-quality graduates.

Numerous students who come from various regions in Indonesia and from overseas choose Malang as a nice place for their studies.

Malang Experience

Located in a valley in the highlands and surrounded by mountains, Malang's climate tends to be cool throughout the year.

Malang is usually cloudy in the rainy season, while the dry season is usually partly cloudy, and is generally warm and scorching.

UNIVERSITAS BRAWIJAYA CAMPUS

Universitas Brawijaya has its main campus located on
Jalan Veteran, Malang, East Java, Indonesia,
covering approximately 48 hectares of land in the western part of the city of Malang.

UB Kediri

UB Kediri Campus is a branch of the main Brawijaya campus in Malang, officially inaugurated in 2018.

At that time, there were five study programs :

1) Aquaculture, 2) Fisheries Socioeconomics, 3) Agroecotechnology, 4) Agribusiness, and 5) Animal Science.

All of these programs have been accredited as "Good".

International Classes

Universitas Brawijaya boasts 18 faculties and offers 175 study programs.

Notably, 18 undergraduate programs host international classes, enabling students from diverse countries to pursue their studies in these programs.

★ : Available International Class

I have benefited from being a student at Universitas Brawijaya in terms of scientific progress because of the advanced curricula and practical lessons provided by Faculty of Economics and Business, as I learned a lot about the science of management and strategic planning.

As an international student, I had a conducive environment to engage in this global educational package because the lessons were all taught in the English language, with sufficient information available to understand Indonesian culture and find everything useful and beautiful in this community

Ahmed Rafik

INBOUND & OUTBOND STUDENT

International Class

This program aims to develop graduates who are capable of competing with graduates from other countries. Students are encouraged to build learning methods and acquire scientific and clinical skills and knowledge through diverse academic resources using an international standard curriculum.

Double Degree

This program aims to improve graduate quality and UB's international ranking. Graduates of the program are anticipated to be able to compete on an international level.

DISABILITY SERVICE

As an inclusive campus, UB prioritizes Character Education and extends services to students with disabilities. Presently, Universitas Brawijaya accommodates 97 active students and boasts 127 graduates, encompassing 7 distinct disability categories. UB offers a spectrum of services to facilitate the academic needs of individuals with disabilities, including accommodation services, accessibility services, mobility services, counseling services, and more.

◆ Disability Facilities

Admission selection for student with disability

Disability awareness (sign language)

Peer support & tutorial

Disability awareness (walk with visually impaired person)

Sport and hobbies activity

Car for disable

Disability awareness (operate wheelchair)

Assistive technology (book digitalization, softwares, application)

BRAWIJAYA INNOVATION

**RAPID
TEST
GAD65
HEALTH
INNOVATION**

Early Detection of Autoimmune Thyroid Disease (TPO) Based on Peroxidase and Thyroid Stimulating Hormone Receptor (TSHR). to detect Diabetes Mellitus (DM) type 1 and type 1.5.

In this kit, the presence of GAD65 autoantibodies is detected, which is an early marker of damage to pancreatic beta cells.

The sensitivity results were very good (100%) and specificity 91.67%.

**BRAWIJAYA'S
SMART WHEELCHAIR**

The advantage of this smart wheelchair is that it has good maneuverability by prioritizing the safety and comfort of its users.

Features in smart wheelchairs apply Deep Learning algorithms to get maximum accuracy and fast computation time.

Other Innovation

THE SEV E-KART

Electric-powered go-kart

GREENHOUSE SALT TUNNEL

crystallization house with a tunnel- shaped design, covered with ultra-violet plastic to optimize salt production

LOBSTECH

lobster farming solution that utilizes Internet of Things (IoT)

MATICGATOR

Multifunctional egg incubator

MEDICAL TOOLBOX STERILIZED PLASMA IONIZEER

Equipped with an ion plasma generator, uv light, and alcohol spray, which are integrated with an Internet of Things (IoT)

BOWELL

Groundbreaking invention that revolutionizes calorie counting.

RESEARCH CENTER

AI Center

Artificial Intelligence (AI) has become a part integral in technological development and research

Universitas Brawijaya will making AI one of the main focuses for utilized in various research and innovations throughout the faculty

Universitas Brawijaya has provided DGX A100 SuperComputer with 5 Teraflop computing capability to provide facilities for lecturers or students who require high computing.

Research Center

Research Center for Smart Molecule of natural Genetics Resource

Universitas Brawijaya Forest

Out Campus Laboratory Development Program

In 2020 Universitas Brawijaya received a Special Purpose Forest Area by the Indonesian Ministry of Environment and Forestry

Brawijaya covers an area of 544.74 Ha

The Protected Forest Area and Permanent Production Forest is used as a laboratory for forestry development, as a University Education and Training Forest.

The Agro Technopark of Universitas Brawijaya is situated in three locations: Kasembon, Jatikerto, and Cangar, East Java, Indonesia.

Meanwhile, the Fisheries Laboratory consists of the Laboratory of Brackish and Sea Water Fisheries, Marine Station, and Freshwater Laboratory.

COMMUNITY SERVICE PROGRAM

Our commitment to community engagement extends beyond academics; it is a transformative journey of service and impact. Through this program, we empower our students and faculty to collaborate with local communities, address real-world challenges, and drive positive change. Together, we foster a culture of social responsibility, enrich lives, and create a better, more sustainable future for all.

The Spirit of Devotion

14.000 Students Towards Building 1000 Villages Movement

Embark on a social project with the mission to uplift remote and rural areas, focusing on bolstering grassroots economies, enhancing infrastructure, and more. Collaborate with village authorities, local cooperatives, or other community organizations to bring these initiatives to life.

Every step of the way, you'll be guided by a dedicated mentor who is a seasoned professor or instructor, ensuring that your efforts have the greatest impact.

Our Partnership Worldwide

At Universitas Brawijaya, our commitment to global collaboration extends across all continents. Our '3 in 1' Visiting Professor Program is a tremendous milestone, leveraging the combined knowledge and expertise of UB professors, visiting professors from around the world, and industry practitioners to enhance the capacity and competency of our graduates. In 2022, we welcomed 187 professors from various countries, which is a testament to our global reach.

Our academic collaborations with leading international universities, including the Joint Degree/Double Degree Program, pave the way for our students to excel nationally and internationally, while expanding our network with esteemed partners.”
